

Group B

Governance Structure

- Various countries express agreement with the proposed structure
- Representation in the Steering Group: chair of any existing intersectoral national mechanism/committee.
- The representation of the countries could be included in the constituting agreement of the Coordination Mechanism
- Need for institutionalization of national coordinating mechanisms, for the country to have unified position when represented in the Coordination Mechanism
- Concerns about potential conflicts between Steering Group and Executive Group
- Need to define decision making power/rules of procedures of the Steering Group
- Steering Group and Executive Group should be at the same platform/hierarchy
- Proposal to have (selected) country representation in the Executive Group, to have more direct involvement in the meeting of the IGOs. Meeting of countries less frequent.
- The structure of the Coordination Mechanism should respond to the CLME+ SAP
