Catalyzing implementation of the
Strategic Action Programme for the Caribbean and
North Brazil Shelf LMEs (2015-2020)

**UNDP/GEF CLME+ Project launches consultancy to identify options
for a Permanent Policy Coordination Mechanism and a
Sustainable Financing Plan for ocean governance in the CLME+ Region**

In November 2017, the UNDP/GEF Project "Catalyzing the Implementation of the Strategic Action Programme for the Sustainable Management of Shared Living Marine Resources in the Caribbean and North Brazil Shelf Large Marine Ecosystems" (<http://www.cmpproject.org>) awarded a consultancy to identify Options for a regional Permanent Policy Coordination Mechanism and a strengthened Regional Governance Framework for shared living marine resources and ocean governance in the CLME+ Region, with a Sustainable Financing Plan. The mandate for this consultancy arises from the CLME+ Strategic Action Programme, which was politically endorsed by over 30 government ministers representing 25 countries and 6 overseas territories in the CLME+ region. Leading the consultancy is the Centre of Partnerships for Development (CAD), based in Barcelona, Spain (<http://globalcad.org/en>), with the Centre for Resource Management and Environmental Studies (www.carelll.uoi.edu/centres/home.aspx) as the advisory group. The consultants are working closely with the countries that have endorsed the CLME+ Strategic Action Programme, multiple inter-governmental organisations, and other stakeholders in the region.

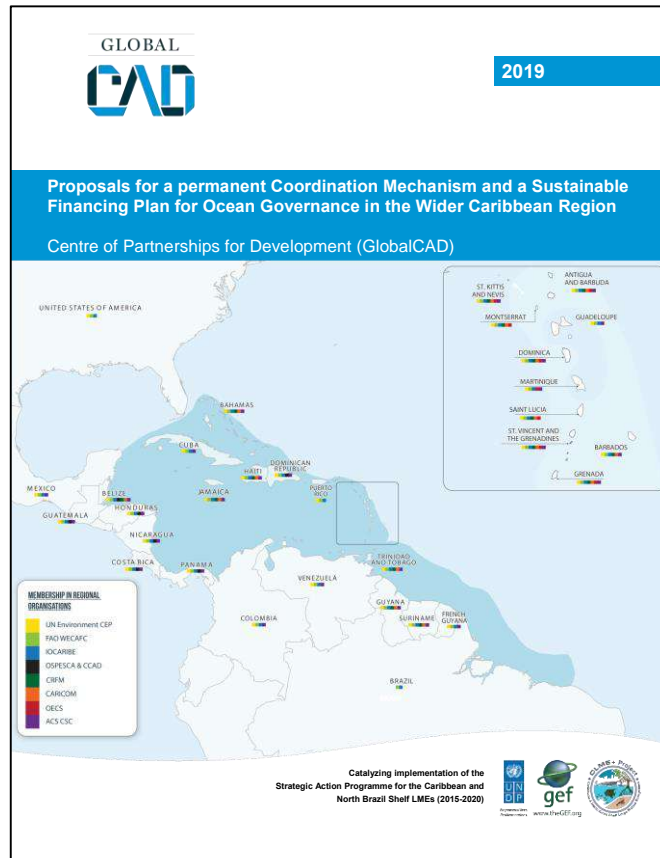

Empowered lives.
Resilient nations.

Phase 2 Report

Presentations

MEETING OBJECTIVES

- Discuss, further fine-tune and achieve consensus on the proposed **mandate and functions** of the Coordination Mechanism
- Discuss, further fine-tune and achieve consensus on the proposed **structure** of the Coordination Mechanism, particularly the **roles of countries, IGOs and the Secretariat**
- Discuss options and formulate preferences or recommendations for the potential **hosting of the Coordination Mechanism** by a country or organization

MEETING OBJECTIVES

- Discuss the preferred **type of establishing agreement** for the Coordination Mechanism and recommend the way forward
- Discuss and select the preferred **financing options for the Coordination Mechanism** and recommend the way forward (short term and long term)
- Discuss, further fine-tune and agree on the proposed **road map towards the establishment of the Coordination Mechanism**, and towards a **sustainably financed Regional Ocean Governance Framework**

MEETING PARTICIPANTS

- Representatives from CLME+ countries as participants to discuss and deliberate on the proposed Coordination Mechanism and the way forward
- Representatives from ICM member organizations as resource persons
- Representatives from other international/regional organizations and a member of the Technical Task Team (TTT) as observers
- The consultant team and PCU as facilitators
